

Homework ideas for our Seasons topic

Our topic for the first half term is 'Seasons'. During this topic we are excited to learn all about the four different seasons our country experiences and how they change the environment. We are also going to think about which months are in each season, the different weather patterns and what happens to the length of the day in each season. Below is a menu of different homework ideas that we think you will enjoy, please choose as many activities as you would like to complete. This is a lovely opportunity to share and discuss your child's learning and work in partnership with them to create and work together. Be as creative as you want to be, we can't wait to see your fantastic home learning! We had some fabulous home learning projects during our last topic, and very much look forward to seeing your Seasons ideas!

- Keep a weather diary by identifying which weather we are experiencing each day.
- Create a seasonal painting or drawing.
- Sequence the order of the months of the year and understand which months are associated with each season.
- Create a picture or collage using seasonal items such as leaves.
- When you are out and about spot different trees and take photos identifying evergreen and deciduous trees.
- Study what happens to wildlife in our country in autumn and winter.
- Create a picture showing suitable weather clothing for each of the different seasons.
