Safer Internet Day 2023

Dear Parents and Carers,

Today we are joining schools and youth organisations across the UK in celebrating Safer Internet Day 2023. Safer Internet Day is a global campaign to promote the safe and responsible use of technology, which calls on children and young people, parents, carers, teachers, social workers, law enforcement, companies, policymakers and more, to help to create a better internet.

Using the internet safely and positively is a key message that we promote in school, and celebrating Safer Internet Day is a great opportunity for us to re-emphasise the online safety messages we deliver throughout the year.

We would be delighted if you could join us in celebrating the day by continuing the conversation at home. To help you with this, the UK Safer Internet Centre have created some free activities and information for parents and carers which are available at: saferinternet.org.uk/SID-parents. Attached to this email is one of those activities - the Internet Interview is for children to ask the questions, and a grown up to answer! Another activity is We Recommend. This is for you to share any apps that both you and your children enjoy, that others may not have heard of. Please share any recommendations you have here. I will collate any responses we get from these and share any useful findings.

Whether you have 5 minutes to start a conversation or hours to spare, there are top tips, quizzes and films which you can use at home with your child.

If you have any concerns or questions about keeping your child safe online, please do get in touch with your child's class teacher, me or Mrs Forshew, as our Designated Safeguarding Lead.

Kind regards,

Mr Coates
Computing Lead
